# Clinical Registries to Schemas

Below is a list of diseases, clinical registries, and schemas to explore

Questions to discuss with Sanjay:

- Do we build a data dictionary per provider and per disease?
  - 1 per provider (start with this)
  - 1 per disease
- How do we handle multi sites with different schemas (e.g., Nimbus, Nimbus AZ)
  - For now, do it separately
- How do we build DD's for sales, data scientists, pharma customer, separately?
  - Page 1 → Summary. # of patients, # of years of data?
  - Page 2 → Tables
  - Page 3 → Columns and descriptions
  - Page 4 → Variables (config driven?)
- How can we automate the whole process (script points at schema, etc.)
  - Onkar to develop

| Provider | Disease | Schema | Notes | Priority |
|---|---|---|---|---|
| Nira | MS (1 Site) | *ms_leaf_nira_registry* | First site we started with | Medium |
| Nira | MS (All Sites) | *nira__ms_cohort* | | Medium |
| Nira | MG (All Sites) | *nira__ms_cohort* | | Low |
| Nimbus | COPD | *nimbus__copd_curated* | Should this be combined with Nimbus AZ? | High |
| Nimbus | Asthma | *nimbus__asthma_curated* | | High |
| Nimbus AZ | COPD | *nimbus_az__copd_cohort* | *Abstracted variables (FEV1, etc.) are in progress* | High |
| Nimbus AZ | Asthma | *nimbus_az__asthma_cohort* | | High |

| | | | | |
|---|---|---|---|---|
| Nimbus AZ | COPD | nimbus_az__copd_cohort | Abstracted variables (FEV1, etc.) are in progress | High |
| Nimbus AZ | Asthma | nimbus_az__asthma_cohort | | High |
| Balboa | Renal | balboa__ckd_cohort | | High |
| MTC | Alzheimers | mtc__alzheimers_cohort | | High |
| MTC | AAT | mtc__aat_cohort | Patients on anti amyloid therapies | High |
| Newtown | MASH | newtown__mash_cohort | | High |
| Newtown | IBD | newtown__ibd_cohort | | Low |
| DRG | Renal | drg__ckd_cohort | | High |
| PRINE | Renal | TBD | | |
| Rocky Mountain Neurology | Alzheimers | rmn__alzheimers_cohort | | High |
| Southland Neurologic Institute | TBD | TBD | | |
| Eye Health America (EHA) | TBD | TBD | | |
| RVC | DR | rvc__dr_curated | | High |
| | | rvc__amd_curated | | High |
